Kinopolis Group

Semestrial Financial Report 30 June 2018

Regulatory release - 23 August 2018

Canadian acquisition contributes significantly to Kinopolis Group's first half-year results for 2018

In the first half of 2018, thanks to the Group's expansion, Kinopolis achieved 38.5% more turnover with 45.1% more visitors. The REBITDA increased by 18.0% during this period. The integration of the Canadian cinema group Landmark Cinemas, acquired in December 2017, is proceeding according to plan and contributed significantly to the Group's results. In Europe, the further implementation of the business strategy and product innovation resulted in a further increase in sales and EBITDA per visitor, all this against a background of weaker visitor numbers due to a long period of uninterrupted hot weather and the football World Cup.

Key figures for the first half of 2018^{1 2}:

- ★ The number of visitors increased by 45.1% to 17.1 million, thanks to the expansion.
- ★ Total revenue increased by 38.5% to €221.8 million, while revenue from the sale of tickets, drinks and snacks increased by 46.2%.
- ★ The current³ EBITDA⁴ (REBITDA) increased by 18.0%, to €51.9 million. The REBITDA per visitor increased in almost all countries.
- ★ Net current profit increased by 13.6% to €18.7 million.
- ★ The free cash flow⁵ increased by 80.3% to €15.6 million.
- ★ Net financial debt increased by 36.0%⁶ to €305.0 million, partly as a result of the acquisition of NH Bioscopen, the dividend payment and the share buyback program.

Eddy Duquenne, CEO Kinopolis Group, about the first half-year:

"The results for the first half of 2018 were significantly affected by our expansion. Our recent acquisitions, notably the acquisition of the Canadian Landmark Cinemas and the Dutch NH Bioscopen, have led to a strong increase in visitor numbers and total revenue. Excluding the expansion, most European countries experienced a decline in visitor numbers due to the less successful range of films released in the second quarter, an exceptionally long period of uninterrupted hot weather and the football World Cup. In the first half of the year, the Netherlands recorded a 15.0% increase in the number of visitors thanks to the further growth of newly opened complexes and the acquisition of NH Bioscopen. In Belgium and in Spain, the decline was limited throughout the first semester thanks to some successful local films, such as 'Patser', 'FC De Kampioenen 3' and 'Campeones'.

¹ All comparisons are with respect to the first half of 2017.

² Press release based on unaudited figures.

³ After elimination of non-current transactions.

⁴ Under IFRS, EBITDA is not recognised as an expense. Kinopolis Group defined the concept by adding to the operating result the depreciations, write-downs and provisions booked and deducting any reversals or practices from the same headings.

⁵ Kinopolis Group defines free cash flow as cash flow from operating activities less maintenance investments in intangible and tangible fixed assets and investment properties, and interest paid.

⁶ Compared with 31 December 2017.

Kinopolis Group

Semestrial Financial Report 30 June 2018

Regulatory release - 23 August 2018

The further implementation of Kinopolis's three-pillar strategy and, in particular, its focus on offering premium experiences, such as Cosy Seats, 4DX and Laser ULTRA, again resulted in an increase in sales per visitor. The evolution of both Box Office (BO) and In-Theatre sales (ITS) revenue was subject to a significantly altered country mix, following the addition of Canada, a market with a lower-than-average BO per visitor and a higher-than-average ITS consumption per visitor. Landmark Cinemas Canada now represents 27.1% of total revenue and is second only to Belgium, accounting for 32.5% of revenue.

As foreseen, the addition of Canada results in a lower average REBITDA per visitor and EBITDA margin, as more than 95% of visitors in Canada are welcomed in rented facilities. Excluding expansion, the REBITDA per visitor increased in Europe.

I'm very enthusiastic about our acquisition in Canada: the integration is proceeding according to plan. A new organisational structure, which aims at implementing our corporate strategy, was rolled out over the past six months. The further roll-out of recliner seats in various complexes and the opening of two new complexes resulted in an increase of our market share and financial results in Canada."

Eddy Duquenne concludes:

"Despite the good weather and less successful films released in the second quarter, Kinopolis is managing to continue to grow. Our innovation and premiumisation strategy continues to pay off, combined with further increased operational performance and successful expansion. In the coming period, the implementation of our corporate strategy within the Canadian organisation will remain high on the agenda. As management, we will also continue to focus on new expansion."

Notes

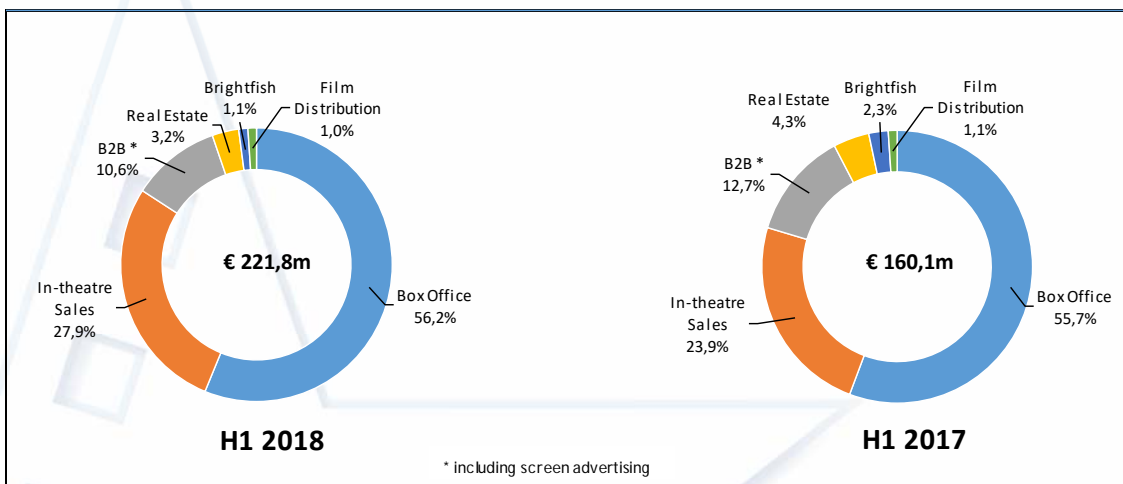

Revenue

Total revenue in the first half of 2018 amounted to €221.8 million, an increase of 38.5% compared with the same period last year. Visitor-related turnover (from the sale of tickets, drinks and snacks) rose by 46.2%, as such outpacing the rise in visitor numbers (+45.1%). Income from B2B and real estate increased by 16.6% and 2.6% respectively. Kinopolis Film Distribution (KFD) recorded a turnover increase of 31.7%. Only Brightfish saw its revenue decline by 34.6% in the first half year.

Revenue by country

Revenue by activity

Kinopolis Group

Semestrial Financial Report 30 June 2018

Regulatory release - 23 August 2018

The increase in visitor numbers (+45.1%) is entirely due to the acquisition of the Canadian cinema group Landmark Cinemas in December 2017 and the acquisition of the Dutch NH Bioscopen in Schagen and Hoofddorp on 1 January 2018. Excluding the impact of the expansion, the number of visitors in almost all European countries was lower than in the same period of the previous year. This is explained by a more difficult second quarter, with a less successful film offering, an exceptionally long period of hot weather, the football World Cup and a very successful month of April the year before (with 'Fast & Furious 8'). A number of top international films, such as 'Han Solo', also fell short of expectations. Only the Netherlands recorded a sharp increase in visitor numbers (+15.0%) thanks to the acquisition of NH Bioscopen and the further growth of the newly built complexes opened in recent years.

The top 5 for the first half of 2018 were 'Avengers: Infinity War', 'Black Panther', 'Deadpool 2', 'Jumanji: Welcome to the Jungle' and 'Jurassic World II'. The most successful local films were 'Patser', 'FC De Kampioenen 3' and 'De Buurtpolitie' in Belgium, 'Les Tuches 3' and 'Une Jolie Ch'tite Famille' in France and 'Campeones' in Spain.

Ticket sales revenue (Box Office, BO) increased by 39.5% to €124.5 million. BO revenue per visitor increased in almost all countries, partly due to the continued roll-out and success of premium products, such as Cosy Seats, 4DX and Laser ULTRA. Only in the Netherlands the BO per visitor decreased, due to the addition of the recently acquired NH Bioscopen.

Revenue from the sale of drinks and snacks (In-theatre Sales, ITS) increased by 61.7% to €62.0 million. ITS revenue per visitor increased in all countries, partly due to more visitors in the shop and an increase in the number of items sold per visitor.

The evolution of both BO and ITS revenue was subject to an important change in the country mix due to the addition of Canada and as a consequence of a significantly lower share for Belgium. Canada is a market with a lower-than-average BO per visitor and higher-than-average ITS consumption per visitor.

B2B revenue increased by 16.6% due to a strong increase in screen advertising with the addition of Canada and increased sales of vouchers and events.

Kinopolis Group

Semestrial Financial Report 30 June 2018

Regulatory release - 23 August 2018

Revenue from real estate increased by 2.6% due to higher rental income in Luxembourg.

Revenue from Kinopolis Film Distribution (KFD) increased by 31.7% due to the big success of the local films 'Patser' and 'De Buurtpolitie'.

Brightfish revenue decreased by 34.6%, mainly due to fewer events and lower revenue from national screen advertising.

REBITDA

The current EBITDA (REBITDA) increased by 18.0%, to €51.9 million. The cost of sales increased faster than revenue due to the addition of Canada with mainly leased complexes. Marketing and administration costs, on the other hand, rose less quickly than turnover, which, together with a further increase in commercial and operational performance, resulted in a REBITDA increase of 18.0%. The REBITDA margin was 23.4% and the REBITDA per visitor decreased by 18.7% from €3.74 to €3.04, due to the change in country mix with the addition of Canada, with mainly leased complexes. The REBITDA per visitor increased in all countries except France.

Profit for the period

Current profit for the first half-year increased by 13.6% to €18.7 million, thanks to a higher REBITDA and lower taxes, despite higher depreciations due to the Group's growth and higher financing costs.

Total profit amounted to €18.9 million compared with €15.8 million in the first half of 2017, an increase of 19.8%.

The most important non-current items in the first half of 2018 were transformation and expansion costs (-€0.9 million), the impact of the change in corporate income tax legislation (+€0.5 million) and a number of other items (+€0.5 million). The positive tax effect on these non-current items amounted to €0.1 million.

The most important non-current items in the first half of 2017 were transformation and expansion costs (-€0.9 million), and a number of other costs (-€0.1 million). The positive tax effect on these non-current items amounted to €0.3 million.

Net financial charges increased by €2.5 million to €6.5 million. This increase was mainly the result of a higher gross debt following the expansion.

The effective tax rate was 29.2% compared with 34.6% in the same period of the previous year. The tax rate decreased mainly due to the impact of the change in the corporate tax rate in Belgium.

Earnings per share amounted to €0.70. This is 20.7% more than in the first half of 2017.

Free cash flow and net financial debt

Free cash flow amounted to €15.6 million compared with €8.6 million in the first half of 2017.

The higher free cash flow was the result of a higher EBITDA corrected for non-cash items (+€6.3 million), a decrease in taxes paid (+€1.8 million), lower interest paid (+€0.1 million), higher maintenance investments (-€0.5 million) and movements in working capital (-€0.7 million).

Kinopolis Group

Semestrial Financial Report 30 June 2018

Regulatory release - 23 August 2018

In the first half of 2018, €57.5 million was invested in the acquisition of fixed assets, an increase of €42.5 million compared with the previous year. This is mainly due to the acquisition of NH Bioscopen and the investments related to the construction of new complexes in Saskatoon, St. Albert, Fort McMurray and Calgary (Canada), 's-Hertogenbosch (the Netherlands), Brétigny-sur-Orge and Metz (France), on the one hand, and the maintenance and remodeling investments, such as recliner seats in Canada and 4DX screens, on the other.

Net financial debt amounted to €305.0 million on 30 June 2018, an increase of €80.7 million compared with 31 December 2017 (€224.3 million). The NFD/REBITDA ratio increased from 2.15 on 31 December 2017 to 2.67 on 30 June 2018, with the REBITDA being restated to 12 months Canada.

Total gross financial debt decreased by €29.2 million to €352.8 million on 30 June 2018 compared with 31 December 2017 (€382.0 million). This was mainly due to the repayment of the Commercial Paper debt.

Balance sheet

Fixed assets (€549.7 million) represented 85.4% of the balance sheet total (€643.4 million) at 30 June 2018. This item includes land and buildings (including investment property) with a carrying amount of €290.9 million.

On 30 June 2018, equity amounted to €148.3 million. Solvency was 23.0% compared with 24.5% at the end of 2017.

Important events since 1 January 2018

Acquisition of NH Bioscopen in Hoofddorp and Schagen

On 1 January 2018 Kinopolis Group took over the NH Bioscopen cinemas in Schagen and Hoofddorp (the Netherlands). The agreement also includes a new-build project in Haarlem (the Netherlands). The cinema complexes and the Haarlem new-build project were owned by Mr and Mrs Frits and Irma Nieuwenhuizen, who also operated the cinemas in Schagen and Hoofddorp. The NH Bioscopen cinema on Texel is not covered by the agreement.

The cinema in Schagen has five screens and 560 seats and the cinema in Hoofddorp eight screens and 1,100 seats. Kinopolis is awaiting the required permits for the new-build project in Schalkwijk, Haarlem.

The transaction has an enterprise value of €27.5 million, including the acquisition of the debts. The acquisition will enable Kinopolis to strengthen its position on the Dutch market and offer the Kinopolis movie experience to even more visitors.

Acquisition of the Palace cinema in Metz

On 8 January 2018 Kinopolis took over the operation of the 'Palace' cinema in Metz (France). The cinema was immediately closed for a complete renovation and transformation into a new arthouse cinema. It will have seven screens and 984 seats and fits in with the joint ambition of Kinopolis and the City of Metz to bring a new, contemporary film offering to the city centre. The cinema - which will carry the name 'Klub' - will (re)open its doors on 30 August 2018.

Further expansion of the Canadian activities with new Landmark cinemas in Saskatoon and Calgary
Landmark Cinemas Canada, acquired by Kinopolis Group in December 2017, reached agreement at the end of January 2018 on the acquisition of the Brighton Marketplace cinema of 'Magic Lantern Theatres' in Saskatoon (Saskatchewan). The cinema, located in the first shopping mall in Saskatoon developed by Dream Unlimited Corp, has been opened on the 1st of June 2018. It has seven screens and 780 premium recliner seats.

Landmark Cinemas also announced a partnership with Cadillac Fairview and Ivanhoé Cambridge, two Canadian real estate companies, to open a new premium cinema in the CF Market Mall in Calgary (Alberta). The opening is foreseen in 2019. This new complex will have five screens and 619 luxurious recliner seats, guaranteeing the residents of Calgary a premium movie-going experience.

Opening of new Landmark cinema in St. Albert

On 15 February 2018 Landmark Cinemas, in the presence of Eddy Duquenne (CEO Kinopolis Group), opened a new cinema in the Jensen Lakes Crossing area of St. Albert (Canada). The cinema has eight screens, fully equipped with Landmark's new luxurious motorized recliner seats (880 in total). Jensen Lakes Crossing is a neighbourhood shopping centre where the local community will be able to enjoy an extensive range of restaurants, wide paths and squares, and entertainment.

Further developments regarding the relaxation of the behavioral conditions imposed on Kinopolis Group

Following the partial annulment last 28 February by the Court of Appeal of Brussels, of the decision taken by the Belgian Competition Authority on 31 May 2017, to relax the behavioral conditions imposed on Kinopolis Group as of 31 May 2019, the aforementioned Authority has taken a new, thoroughly motivated decision on 26 April 2018.

The decision confirms the previous relaxation of the behavioral conditions, which means that the opening of new cinema complexes in Belgium is no longer subject to prior approval of the Competition Authority, but this will enter into force as of 26 April 2020. A new appeal has since been lodged against the decision of 26 April 2018. A ruling in this case is expected this autumn. In the meantime, Kinopolis is free to prepare for any future investments in Belgium.

Remodeling of Kinopolis Emmen

Kinopolis Emmen officially reopened at the end of April 2018 after intensive remodeling. At the end of 2017, the Utopolis logo on the façade was replaced with the Kinopolis logo, all seats were replaced, the cash registers were upgraded, ticket machines were installed and the familiar Kinopolis self-service shop was opened.

New image recognition functionality in Kinopolis app

In March 2018 Kinopolis added new functionality to its Android and iOS apps - image recognition. This means that the Kinopolis app can be used to scan a film poster (at a bus stop, in a magazine, on a website or in the cinema) to display full information about the film. If the film has already been programmed, the app displays all start times at the nearest Kinopolis cinemas on the first available day. The user can also buy tickets directly in the app. With this new functionality Kinopolis also opens a new sales channel in its cinemas for customers who decide which film they want to see when they get to the cinema. By scanning the film poster, users are just a tap away from buying tickets without having to join a queue.

A lessee recognizes a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. There are optional exemptions for short-term leases and leases of low value items. Lessor accounting remains similar to the current standard - i.e. lessors continue to classify leases as finance or operating leases. For lessors, there is little change to the existing accounting in IAS 17 Leases.

IFRS 16 replaces existing leases guidance including IAS 17 Leases, IFRIC 4 Determining whether an Arrangement contains a Lease, SIC-15 Operating Leases - Incentives and SIC-27 Evaluating the Substance of Transactions Involving the Legal Form of a Lease. The standard is effective for annual periods beginning on or after 1 January 2019. Early adoption is permitted for entities that apply IFRS 15 Revenue from Contracts with Customers at or before the date of initial application of IFRS 16.

The Group is analyzing the possible impacts on its consolidated annual financial statements. So far, the most significant impact identified is that the Group will recognize new assets and liabilities for its operating leases of buildings and carpark. In addition, the nature of expenses related to those leases will now change as IFRS 16 replaces the straight-line operating lease expense with a depreciation charge for right-of-use assets and interest expense on lease liabilities. The Group decides that it will use the optional exemptions, as they have a limited material impact.

As a lessee, the Group can apply the standard using a retrospective approach or a modified retrospective approach with optional practical expedients. The choice must be applied consistently to all of its leases. The Group will apply IFRS 16 as of 1 January 2019, and has chosen to apply the modified retrospective approach with optional practical expedients (Option 2B) on transition date.

As a lessor, the Group is not required to make any adjustments to leases, except in the case of sub-leases.

The Group currently expects to increase its EBITDA by €26,4 million and its assets and liabilities by approximately €271 million through the adoption of IFRS 16. This impact will be influenced by changes in existing contracts or possibly new contracts between now and year end.

The application of IFRS 16 will not have an impact on the Group's ability to comply with its financial covenants.
